

Full Automatic Carbonated Soft Drink Filling Machine For Pet Bottle / Plastic Bottle DCGF18-18-6

Combined with foreign advanced technology design and years experience in filling machine field, this washing filling capping 3 in 1 monoblock machine is suitable for small beverage production company. The clamp for rinsing bottle is the introduction from Italian technology, with high accuracy for manufacturing, accurately filling level and small loss of fluid, especially suitable for high speed filling; Screw cap system is introduction of France technology manufacturing, using magnetic screw cap, adjustable torque, a synchronous take cover - screw cover device, cover loss is small.

Product Application

Complete Line of Automatic carbonated soft drink filling machine for cola plant

Including Bottle Blowing Machine--Water Treatment Plant--CSD Filling machine (with CO2 Mixer and Chilling Machine)--Spray Tunnel--Labeling Machine--Shrink Wrapping Machine

Specifications:

Application	Soda water, Soft drink. Carbonated drink, Energy drink, Beverage drink
Suitable bottle Type	PET/Glass bottle with size 200ml to 1500ml
Bottle Height suitable	Bottle height. Φ 160— ϕ 340mm
Bottle Diameter suitable	Bottle dia. ϕ 50- ϕ 90mm
Suitable cap	Screw cap, Pressing Cap, Sport cap, Aluminum Cap, Crown Cap
Capacity	1,500 to 2,000 bottles per hour(500ml bottle)
Filling style	Isobaric filling
Filling Temperature	Room Temperature
Voltage	220/380V Custom made
Automatic Grade	Automatic
Driven Type: Electric	Electric
Material:	High quality SUS304/316L stainless steel
After sale Service Provided	Engineers available to service machinery overseas
Power	3.1kw
Weight	2000KG
Dimension	2000*1600*2500 mm(L*W*H)
