

## Automatic Weighing Packing Machine FF-1A

This machine is suitable for automatic packaging of granular powder materials in food, pharmaceutical, chemical, pesticide and other products. Such as: peanuts, melon seeds, potato chips, peanuts, oatmeal, penghua food, desiccant, washing powder, broken tea, granules, coffee sugar, white sugar and various non-sticky loose particles and so on.

1. Automatically complete the measurement and filling work.
2. Chinese display screen control system, all stainless steel body, input the number of grams needed to be filled to start working, and the control system automatically optimizes and matches each action to achieve the ideal filling speed.
3. Stepless adjustment speed; packaging speed can be steplessly adjusted within the rated range, no need to replace parts

### Technical Parameters:

Model	FF-1A
Filling capacity (Gram)	100-1000 (Can be customized according to customer requirements)
Filling speed (BPM)	1-30
Power supply (VAC)	220/380V 50/60HZ
Power (KW)	0.5
Dimensions (MM)	740×760×1720
Net weight (KG)	160
