

Rotary Type Filling & Sealing Machine (Aluminum Lid) – CE-800/RYF

Rotary type filling-sealing machine for all kinds of yogurt, milk, fruit juice beverage products automatic cup dropping filling, absorb paper film, sealing, dating, automatic box transmission. The machine use Japan Omron programmable logic controller, Taiwan pneumatic control components, Intelligent Digital Display Temperature Control System The machine all stainless-steel cover, sealing with high strength, good sealing, and low failure rate, easy clean, occupies small area.

Technical Parameter:

Model	CE-800/RYF
Capacity	800 cup/hour
Filling range	50ml-600ml (Adjustable)
Heat power	1kw
Air consumption	0.6 m ³ /min
Voltage	220v 50Hz
Weight	250kg
Overall dimension	1250 x 1250 x 1750mm
