

## PGS-50 Semi Auto Rice Filling Sealing Machine

Semi auto rice filling sealing machine can suit for different type bags such as woven bags, Kraft bags, paper bags etc, and bag closed by sewing/thread stitching or heat sealing/hot sealing.

### Applications:

Gravity feeder packing machine, this type packing machine suit for packing different granule materials such as animal feed, fertilizer, urea, DAP, grains, rice, beans, wheat, dry sand, PE, PP plastic etc.

### Technical Parameter:

Item	PGS-50WL	PGS-50L	PGS-50SK
Application materials	each type small size granule materials		
Weighing range	10-70kg/bag or customized	5-70kg/bag or customized	5-70kg/bag or customized
Scale interval	10g		
Feeding type	gravity feeder with Three-stroke cylinder		
Weighing hopper	non-weighing hopper	single weighing hopper	dual weighing hopper
Precision	±50g		
Capacity	3-5bag/min	6-8bags/min	8-15bags/min
	PLC system and 10" full touch screen HMI		
Air source	0.5-0.8Mpa		
Dimension(L*W*Hmm)	3000*1100*2100mm+	3000*1100*3100mm+	4000*1200*3600mm
	1000mm buffer hooper	1000mm buffer hooper	+1000mm buffer hooper
Power	1.1kw	1.1kw	1.1kw
Voltage	single/three phase AC220V/AC380V/50HZ		
Working environment	(-20°C~50°C)		
Relative humidity	≤90%RH		
Machine materials	product contact parts SS304/full Q235 carbon steel with anti-rust painting		
Name	Semi auto rice filling sealing machine
