

Automatic Powder Servo Measuring and Packing Machine DP-320/420/520

Features:

- It adopts color touch screen and stable and reliable two-axis high-precision output PLC control, bag making, metering, filling, sealing, coding and bag cutting.
- The air circuit control and electric circuit control are separated independently, the noise is small, and the circuit is more stable.
- The Panasonic servo motor belt is used to pull the film: the film has less resistance, the bag is formed well, and the belt is not easy to wear.
- With an external film release mechanism, packaging film installation is simpler and easier.
- The deviation adjustment of the packaging bag can be adjusted on the touch screen directly, and the operation is simple.
- The whole machine adopts a closed mechanism to effectively prevent dust from entering the machine.
- Suit for packing all kinds of powder products.

Specification machine:

Model	DP-320	DP-420	DP-520
Bag Length	80-240mm	80-300mm	80-350mm
Bag Width	50-180mm	50-200mm	50-250mm
Max Film Width	320mm	320mm	500mm
Packing Speed	5-60 bag/min	5-60 bag/min	10-50 bag/min
Measuring Range	100-800ml	150-1200ml	150-2000ml
Power Voltage	220V 50/60Hz	220V 50/60Hz	220V 50/60Hz
Power	2.2Kw	2.8Kw	4Kw
Film Thickness	0.04-0.08mm	0.04-0.08mm	0.05-0.1mm
Dimension (L*W*H)	1185*935*1245mm	1217*1015*1343mm	1488*1080*1490mm
Weight	550KG	650KG	800KG
