

## *YPK-4012 Corrugated Box Packing Machine*

Carton forming machine can finish the work of carton opening, shaping, folding and sticking adhesive tapes. Equipped with our consistency system, it runs precisely and reliably. This machine provides extremely secure sealing effect, without tape slipping problems. Hot melt glue system is optional. It is widely used with our carton sealer, carton packer, weighting system, labeling machine, printing machine, strapping machine and conveyor system accordingly.

Adhesive tape used: Bopp. WaterFree Adhesive Tape, PVC Adhesive Tape

### **Machine feature:**

1. Mainly used in sealing and packing cartons, which can be used either independently or as a necessary part of a production line.
2. Adjust sealing height and width by hand according to the size of carton, then put carton on worktable, and carton will be transmitted through and sealed with tape automatically at the same time.
3. The machine is widely used in the fields of electrical, domestic, textiles, foodstuffs, general merchandise, medicine and chemical industries.

**Technology Parameters:**

| <b>Model</b>           | <b>YPK-4012</b>                           |
|------------------------|---|
| Max. packager size     | L450*W400*H400mm (customizable)           |
| Min. packager size     | L250*W150*H100mm (customizable)           |
| Packing speed          | 8-12pcs/min                               |
| Width of adhesive tape | 48mm,60mm,72mm                            |
| Power                  | 200W                                      |
| Voltage                | 220V/ 50Hz single phase                   |
| Air supply             | 6kgf/cm <sup>2</sup> , 450nl/min          |
| Conveyor height        | Min.600mm Max.700mm Standard height:650mm |
| Machine dimension      | L2100mm*W2100mm*H1480mm                   |
| N.W                    | 450kg                                     |
