

Round Bottle Labeling Machine

Achieve automatic labeling the adhesive label on round surface or small conical surface of the products.

Application:

Widely used in Chemical, Electric, Medicine, Plastic, and Cosmetic industries etc.

Advantages:

High labeling efficiency, accuracy and quality and stability; Avoid many problems of labor labeling, skew labeling, bubble, wrinkle, irregular labeling etc; Lower product cost effectively and make the product more beautiful.

FEATURES

- ✓ Adopt standard PLC+ touch screen+ stepper motor+ standard sensor electric control system. High safety coefficient; Complete English writing human-machine interface; Has advanced fault remind function and operation teaching function; convenient to use and easy to maintain.
- ✓ No step speed regulation on the labeling speed, transportation speed and bottle division speed, easy for worker to adjust according to reality.
- ✓ Completely achieve fast labeling round or half-round for round bottle, small beaker flask, or square bottle. It has multi-function, which can be used either for one kind of label or for many kind of labels.
- ✓ The clever design which allow user to mechanically adjust some structure combination and label winding, makes it easy to adjust the labeling position freely (it can be fixed easily after adjustment).
- ✓ The belt conveyor, stable, reliable guarantee the delivery of materials.

☑Conveying and automatic labeling speed synchronous tracking, make the adjustment is more quick and easy operation.

☑Automatic sensor detection, to have any label and without the automatic stop and alarm automatic detection function, prevent leakage and waste.

☑Adopt vertical labeling method, can be work alone or join in the production line.

TECHNICAL PARAMETERS

Product Name	Round bottle Labeling machine
Power Supply	AC220/380V;50/60HZ
Power	2.5KW
Machine Size	2000*1300*1600mm
Weight	450KG
Suitable bottle	Customized
Usage	Liquid Packaging
Max Capacity	6000 BPH
Bottle type	PET Glass Metal Bottle
Automatic Grade	Automatic
