

## *Automatic Sauce Filling Machine SFS-series*

### **Brief Introduction:**

This filler is suitable for jam, salad sauce, chili sauce, ketchup, spice sauce, ointment, cream etc which is high viscosity paste product.

It is widely used in foodstuff, pharmaceutical and cosmetic field.

### **Features:**

- Rotate type piston filling machine, high speed and filling accuracy.
- Controlled by PLC and, Operation through touch screen.
- Ok for paste product which with small granules.
- With accurate filling volume adjust device.
- With mechanical and electrical over loading protect device
- No bottle no filing
- Whole machine is made up by 304 stainless steel, sanitary and easy for clean, conform to foodstuff standard.

### **Option Item:**

Can make machine product contact parts by 316 stainless steel.

Automatic bottle detection: machine starts/stops automatically when there is /no bottle on the conveyor.

Bottle fault detection: machine stops automatically if bottle get stuck during the running.

**Main Parameter:**

<b>Model</b>	<b>Unit</b>	<b>SFS</b>
Nozzle Number	PCS	12
Filling volume	MI	50-800
Production capacity	Bottle/h	5000b/h (500ml)
Quantitative error	%	$\leq \pm 1\%$ ,
Source voltage	V	Three-phase four-wire system AC220V 380V $\pm 10\%$
Consumed power	KW	4
Weight	KG	1500
Dimension	MM	1800x1500x1900mm
