

Full Automatic Granule Packing Machine MY-60K

This machine can automatically complete cup volumetric filler measuring--coding (optional)--bag making--filling--gas injection/exhaust (optional)--sealing--counting.

PLC control system, color touch screen display, photoelectric tracking, high reliability and intellectualized degree.

- 1) Make punching blade (round/euro hole) and gusset bag device after customer's request.
- 2) Machine body and all food touching part are made by stainless steel

Technical Parameters:

Model	MY-60K
Packing speed	20-60 bags/min
Packing range	0.5-50ml
Film width	≤ 300mm
Making bag size	L: 50-300mm, W: 50-210mm
Packing accuracy	±1% (depends on product)
Power	1.18 KW
Power supply	AC220V, 50/60Hz
Seal type	3 or 4 side sealing
Net weight	260kg
Machine dimension	L800 × W800 × H2000mm
