

# CFP-1

## Coffee Capsule Filling Machine

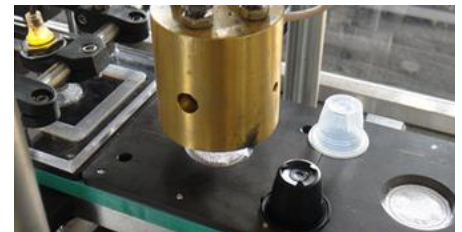

### Features:

Customized coffee capsule fill seal machine, with function of auto cup feeder, cup detect, full auger filler, nitrogen flushing, Premade Lid Place Or Roll Film Punch, Cup Seal, Output etc.

Popular used in coffee capsule, Can connect with vertical packing machine or flow wrapper.

### Characteristic:

- Horizontal machine design easy maintenance Moveable mould,
- easy change mould Pneumatic driven mould,
- stable simple design PLC Control,
- Touch screen easy operation Premade lid or roll film cut for choice Door Open Stop Safety Protect Device Auto cup feeder,
- store lot of cups Full auger filler suitable for coffee capsule Servo driven auger,
- high fill accuracy Adjustable auger height,
- easy installation Nitrogen Flushing As Optional No cup, no fill

Technical Data	CFP-1
Fill Tool	Auger
Fill Range	3-15gram
Capacity	20cups/min
Containers	Cup in PP,PS etc
Container size	According to sample
Max. Reel Width	According to sample
Reel Material	Laminated Film
Air consumption	0.43/min
Overall Dimension(mm)	2050*950*1800MM
Net weight	500kg
