

XFL-200II Automatic Twin Vertical Packing Machine

Main performance and functional characteristics:

1. Equipped with safety protection, comply with firm's safety management requirements.
2. Use intelligent temperature controller to have accurate temperature, which ensures the artistic and neat seal.
3. Use PLC Servo System and pneumatic control system and super touch screen to compose the drive control center, which improve the whole machine's control precision, reliability and intelligent level.
4. This machine completes automatically the whole packing procedure of loading materials, measuring, bag making, sealing, date printing, air charging (or exhausting) and finishes products transporting as well as counting.
5. Touch screen can store the technical parameters of various kinds of products, it is unnecessary to reset while products changing.
6. With error indicating system, which help to handle the trouble immediately.
7. Make pillow bags and hanging bags in terms of customers' different requirements.

Technical Parameter:

Model	XFL-200II
Bag-making Size	(L)80-300mm, (W)80-200mm
Packing Speed	25-75 Bags/Min
Power Supply	220V, 50-60Hz,
	3.0 Kw
	6-8 kg/m ²
Compressed air consumption	0.15 m ³ /min
Weight	500 Kg
Dimension	1450×1000×1700 (mm)
