

DXDK900/DXDK900A Automatic-feeding Packing Machine ***(Multi-sachets Grain Packing Machine)***

Function Introduction

- Small size, compact structure, smooth and reliable operation, high efficiency.
- Applicable in pharmaceutical, foodstuff and cosmetic industries, suitable for packing of grain status, tablets, mini pills and etc.
- Automatically controlled by computer with steeples speed control. The length of bags can be steeples adjusted without mould replacement.
- Friendly interface for adjustment on mechanisms of sealing, printing, tear-off-lining, feeding and etc.
- In accord with GMP standard.

Technical Parameters

Sachet width	50-420mm
Sachet length	60-180mm
Weight per sachet	0.5-20g(1-40ml)
Max. packing rate	420 bags per min
Max. vertical lines	8 bags
Max. material width	900mm
Max. material external diameter	Ø300mm
Material inner diameter	Ø70-76mm
Total power	8KW
Power	380V, 50Hz
Weight	1200Kg
Dimension(LxWxH)	1560x1620x2150mm
