

## *YB-DN260 High Speed Chocolate Candy Single Twist Packing Machine*

YB-DN260 model is specially designed for single twist/top twist packing style. Clever structural design, make the wrapping paper more fit, the kink is tight. By replacing the molds suites to achieve wrapping of multiple sizes of products.

This packing machine uses double-layer wrapping paper, one-time paper feeding, and the use of a Panasonic servo motor to control the paper feeding, cutting, and stopping of the packing paper, in order to avoid maximum protection.

The single-twist candy packaging machine has the advantages of exquisite packaging, good consistency, and high efficiency.

We carry out special improvements for customers' candies, including cutting hands, twisting hands, etc., so that every step can be done to the best, presenting the best packaging effect.

### **Technical Specification:**

- Model: YB-DN260
- Packing Speed: 200-300 pcs/min
- Product size available: Diameter: 15-30mm
- Power: 5.0KW
- Voltage: 380V/220V 50Hz 3p
- Packing machine: 2970\*1520\*2200mm
- Conveyor machine: 2870\*960\*1220mm; 600\*860\*1220mm
- Gross Weight: 2480KG
