

## CB-169T Automatic Tea Packaging Machine

### Description

- Our machine is perfect for efficiently packaging small particulate materials, including tea, herbal tea, and health tea.
- It handles the inner and outer bag, ensuring precise bag length and positioning with the help of a stepper motor.
- Temperature control is optimized with a PID-adjusted temperature controller, guaranteeing accuracy.
- The overall machine movement is controlled by a PLC, complemented by a user-friendly interface to ensure product integrity.
- The packaging materials for this machine include filter paper, thread, composite films, and labels.

### Technical Parameter:

Product name:	CB-169T Tea Bag Packing Machine
Balance:	0.2g according to your product
volume range:	3-10g accrodg to your product
power:	3.7KW
voltage:	220V/50hz
machine size:	1500*650*2250mm
machine material:	Glossy/stripe Stainless steel
Bag length:	L 80-120mm W 75-95mm
