

## Gusset Pouch Packaging Machine RZ8-200C

All kinds of material such as solid, granule, powder, liquid, thick liquid and other materials that can be packed by bag.

### Features

1. Perfect Prevention System: when the bag is not open or not opened enough, it will be non-filling and non-sealing, so the empty bags return to the first station to refill and not wasted and it will save the production cost.
2. Stainless steel/other materials ensure sanitation and safety, meet the GMP standard.
3. Oil-free vacuum pump: avoid production environment pollution.
4. Waterproof Design: direct water-washing the machine surface, easy to clean, prolong the useful life.
5. Premade bag packing: high sealing quality, upgrade the finished product
6. Adopt concentrated oil-supplied lubrication device inside the grooved cam.
7. Time, mechanical actions are controlled by end cam and tension springs, empty bag cycline
8. (Structure function is simple and cost lower than D model. Machine clamps are adjusted in
9. Product parameters can be saved)

### Technical Parameters

Model	RZ8-200C
Bag Size	W:70~200mm L:100~300mm ( depended on the product & bag type)
Filling Range	5~1500g
Packing Speed	20~60bags/min (depended on the product and filling weight)
Weight	1000kg
Dimension	1570mm*1440mm*1480mm(L,W,H)
Package accuracy	Error $\leq$ ±1%
Total power	3kw
