

UP-20 Semi-automatic Ultrasonic Tube Sealing Machine

UP-20 Semi-automatic Ultrasonic Tube Sealing Machine is used for sealing tubes by means of ultrasonic. Compact design and simple operation. And it's used in laboratory and small batch production.

Technical Parameters:

- Frequency: 20KHZ;
- Ultrasound power: 1500W;
- Power supply: 220 50/60HZ;
- Capacity: 8-15 pcs/min;
- Sealing diameter: 5-50mm;
- Max. sealing height: 250mm;
- Net weight: 98KG;
- Dimensions: 850x600x640mm.
