

Carton Assembling Machine

Carton Assembling Machine, are machines that automatically form cardboard boxes. These machines are commonly used in manufacturing and packaging facilities to improve efficiency and reduce human error. It come in different sizes and models, and can be customized to suit different applications.

This machine typically work by taking a stack of cardboard blanks from storage, and feeding them through multiple stages of forming and folding. The first stage is usually the forming, where the cardboard blanks are formed into a box shape. The machine then folds the flaps of the box.

Features:

- ① Operation-friendly, easily change between different sizes of box.Simple operation
- ② With PLC control technology, accurate positioning.
- ③ The man-machine interface makes communication faster and makes diagnostics more powerful.
- ④ Easy to install, we have installation instructions as well as online video instructions.

Technical Parameters:

Product Name	Carton Assembling Machine
Machine Size	2400mm(L) X1900mm(W) X1400mm(H)
Carton Box Forming Speed	15-25 boxes/minute
Carton Storage Capacity	250-300pcs
Carton Box Size	L:145-420mm X W:80-350mm X H:150-350mm
Power Supply	AC220V, 50Hz, 2.3kW
Gas Consumption	0.4--0.6 Mpa, 400NL/ Min
Touch Screen	7 inches
