

JLB-801 Vertical Round Bottle Labeling Machine

Applied to vials, ampoule bottles, Schering bottles, syrup bottles, essential bottles, and other round bottles labeling.

Features

- This tube labeling machine is adopted touching screen, simple and easy to operate;
- Adopts Siemens PLC control system, make this tube labeling machine more stable and reliable on the operation and long time working;
- Automatic detecting sense for bottles and labels, for detecting diameter of container: adjust parameter automatically, to achieving smart control;
- With the function of no bottle no labeling, auto warning if no label or lack of label;
- Can be used alone or integrated into line and matching filling equipment speeds.

Technical Parameters

Model	JLB-801
Speed	300 bottles/minutes
Round Bottle Size	Diameter 20-90mm
Dimension	1920mm*1670mm*1390mm
Labeling Precision	±1.0mm
