

## ***LTPK LT-G380B Semi Automatic Double Head Liquid Weighing and Filling Machine***

The dual head liquid weighing and filling machine adopts world-renowned brands of electrical and pneumatic components, with low failure rate, stable and reliable performance, and long service life. No need to replace parts, can adjust to the bottles of different shapes and specifications, with strong applicability

### **Application:**

Suitable for filling various liquid products, such as engine oil, gear oil, hydraulic oil, edible oil, etc.

### **Technical parameters:**

Model	LT-G380B
Voltage	220/110V
Power	3000W
Maximum flow rate	100L/2 head/min
Filling accuracy	±10g
Filling range	150g-30kg
Filling nozzle	25mm
Liquid temperature	<90°C
Max suction distance	8m
Hose size	32*41mm
Bracket height	15-55cm adjustable
Machine size	135*57*130cm
Machine weight	145kg
