

## ***DP30A Single Punch Tablet Press***

DP30A Single Punch Tablet Press is widely used for pressing tablets in pharmaceutical, chemical, food and metallurgy industry. It can press round or special shaped tablets from various granular materials. As its features, high precision of filling, low-noise, low-consumption of material, and smooth operation. The minimum consumption of lab material is just 200g. It is reliable and efficient for laboratory use in research & development and for small batch production. It is the best table top single punch tablet press in its kind.

### **Description:**

DP Single Punch Tablet Press is widely used for pressing tablets in pharmaceutical, chemical, food and metallurgy industry. It can press round or special shaped tablets from various granular materials. As its features, high precision of filling, low-noise, low-consumption of material, and smooth operation. The minimum consumption of lab material is just 200g. It is reliable and efficient for laboratory use in research & development and for small batch production. It is the best table top single punch tablet press in its kind.

## Technical Data

Model	DP30A		
No. of punch top	1	2	3
Max output (tablets/minute)	60	120	180
Tablet diameter (mm)	4-20	4-10	4-7
Max filling depth (mm)	16		
Max compression force (kN)	30		
Max tablet thickness (mm)	8		
Main motor power (kW)	0.55		
Power Supply	AC, 110-220V, 50/60Hz		
Overall dimension (LxWxH) (mm)	470x750x740		
Weight (kg)	150
