

LR117A Tabletop Fully Wrap Around Labeler

The Tabletop round bottle labeling machine LR117A is able to position the bottles in exact place, and apply labels efficiently. Labeling speed is ranging from 20 to 50 bottles per minute, and it's suitable for various types of round bottles. The machine sets parameters by the microcomputer control interface. It can be operated by a single person without complicated procedures. Containers like easy-open cans, aluminum cans, glass/ plastic bottles, are suitable for this machine. Common products in our daily life are appropriate, such as medications, lutein, spray bottles, cosmetics, sparkling water, beer, fruit jam, instant coffee, and milk powder can be labeled by LR117A. We provide steady and perfect labeling result, which is exquisite and perfect with no wrinkles or air bubbles on labels.

Features

1. Environmentally friendly material

The labeling machine makes of engineering plastics that are impact resistant and high-temperature resistant, in addition to well thermal and mechanical performance. There are more than 80% recyclable materials from the machine, we hope to make our contribution to the global environments.

2. Japanese-made stepper motor for high accuracy

Tabletop Round Bottle Labeler is equipped with a Japanese stepper motor and photoelectric sensor, which is precisely detects and arranges bottles in place. Setting error won't exist.

3. Small logo stickers or full wrap-around labeling are suitable

Label size depends on the size of the bottle. Except for transparent label, LR117A is suitable for various labels and stickers, including self-adhesive labels, barcode labels, and standing stickers, etc.

4. Widely used in different kinds of industry

5. High quality and productivity of labeling

The final product is pretty, delicate and solid without wrinkles.

6. The Labeler can combine with other filler or capper as a production line

7. Made of SUS#304 stainless steel and aluminum alloy

The machine is firm and durable; besides, it's easy to cleaning and maintenance

Specification

- Labeling Speed: 20-50 pcs/min (depending on the sizes of bottle and label)
- Bottle size: Diameter 16mm-100mm; Height 30-160mm
- Label Size: Width 10-100mm; Length 10-300mm
- Label Roll: Inner Diameter 75mm; Outer Diameter 300mm
- Power Supply: 110/220VAC ; 50/60Hz
- Machine Size: (L) 850mm (W) 830mm (H) 410mm
- ✂ *Actual product specifications may vary*
