

NKEAW-250 Automatic External Ampoule Washing Machine

Welcome to N.K Industries, the leading manufacturer, supplier, and exporter of the cutting-edge Automatic External Ampoule Washing Machine Model NKEAW-250. Our advanced washing machine is specifically designed to cater to the pharmaceutical and injectable segments, offering unparalleled performance and precision.

Designed to meet the highest industry standards, the Automatic External Ampoule Washing Machine NKEAW-250 is engineered to wash the external surface of cylindrical containers like ampoules, ensuring the utmost cleanliness and hygiene for your products. With a remarkable washing capability that includes four stages—Detergent Water, Tap Water, Air Wash, and Heating—the machine guarantees a thorough and efficient washing process.

Customization is at the core of our machine's design, allowing you to tailor the washing sequence to meet your specific requirements. We understand that each customer's needs are unique, and our machine is built to adapt accordingly, delivering the desired washing results.

Speed is a crucial factor in modern manufacturing, and the Automatic External Ampoule Washing Machine shines in this aspect. With a speed of up to 250 ampoules per minute, our Automatic High-Speed Rotary External Ampoule Washing Machine ensures rapid and seamless operation, optimizing your production efficiency like never before.

In the pharmaceutical and injectable industry, precision and compliance are paramount. Our machine is engineered with meticulous attention to detail, guaranteeing the highest level of cleanliness and safety for your products. Trust in N.K Industries to deliver excellence, enabling you to meet regulatory standards and deliver top-quality pharmaceuticals to your customers.

Experience the power of technological advancements with the NKEAW-250 Automatic External Ampoule Washing Machine. As your reliable partner in manufacturing solutions, we are committed to enhancing your operational efficiency, quality, and customer satisfaction.

Contact us now to explore how our cutting-edge technology can elevate your production processes. Embrace innovation and excellence with N.K Industries, your trusted partner for Automatic External Ampoule Washing Machine in the pharmaceutical and injectable industries.

Salient features:

- Machine frame is made of AISI 304 pipe duly welded & grinded surfaces & fully covered with the AISI 304 Sheet.
- CGMP Model.
- Loading is done with help of Tray where Ampoule stored in bulk.
- 4 stage external washing sequence.

Technical Specification:

MODEL	NKEAW-250
Machine overall Dimension	1400 x 1070 x 730
(L X W X H) mm	1400 x 1070 x 1230 (with operating Panel)
Machine net weight (KG)	500
Machine gross weight (KG)	800
Tanks	2 nos of SS-316 Tanks with 50 Liters Capacity
Output	1 ml to 5 ml Ampoule à 250 CPM
Suitability	1 ml to 5 ml ampoule with change part
Loading of Container to Machine	Tray
Unloading of Container	Tray
No of centrifugal pump with 3 phase induction motor	2 Nos
Blower	1 Nos
Heater block	3 no of heaters and each rating 1 KW.
