

Multi-bucket Electronic Combination Scale

It is suitable for the quantitative packaging of small granular products and bulk materials such as Chinese herbal medicine and other relatively uniform.

- Easy to operate: adjust the amplitude separately.
- Avoid material clogging: control weighing and discharging in turn.
- Digital weighing module: the perfect combination of high precision and high speed.
- Low maintenance cost: Modular stepper motor driver.

Technical Parameters

Model	2斗秤	4斗秤
Measuring range	10-6500g	3-6500g
Max Capacity	30 BPM	40 BPM
Accuracy	±1-5g	±0.3-3g
Power Supply	AC 220V 50Hz 1kW	AC 220V 50Hz 1kW
Size	1042*956*1395mm	1350*945*970mm

Model	10斗秤	14斗秤
Measuring range	3-6500g	3-6500g
Max Capacity	80 BPM	120 BPM
Accuracy	±0.3-3g	±0.3-3g
Power Supply	AC 220V 50Hz 2kW	AC 220V 50Hz 2kW
Size	1120*1120*1220mm	1270*1220*1420mm
