

## KYH540 / KYH730 Granule Box Type Bag Packing Machine

This box-type bag packaging machine is a latest machine developed by our company, four corners are added on the packaging bag based on vertical bag, making the packaging bag have a stronger spatial vision, nicer appearance and more attraction. This packaging unit consists of one set box type bag packing machine, one set weighing machine, one set bucket elevator, one set platform and one set take-off conveyor, suitable for weighing packing granules, such as coffee beans, nuts in box type bag.
