

## Semi Automatic Cable Labeling Machine SBM-LM25108

Semi-automatic cable Labeling SBM-LM25108 is suitable for various kinds of cables. Such as round cables, flat cables. This machine can be widely used in many industries include electronics factory, electric factory, wire factory and so on.

### The features of semi-automatic cable labeler

- Can be connected with the assembly line or separate labeling.
- Occupies a small space.
- Applicable all kinds of label.
- High level of electronic control system, using photoelectric switches from German and MITSUBISHI PLC.
- High accuracy, using high quality vacuum generator to stabilize the suction pressure.
- Universal intelligent control, automatic photoelectric tracking, can prevent the wrong label and the leakage label.

### Technical Info

Model No.	SBM-LM25108
Applicable cable dimensions	3-8mm
Label size	(W) 6~50mm / (L) 40~120mm (label size can be customized)
Accuracy	±0.3mm
Labeling speed	20-30pcs/min
Voltage	220v
Frequency	50HZ
Air pressure	0.6Mpap
Power	140W
Weight	60kg
Machine size	Machine size: (L) 750mm (W) 500mm (H) 1100mm
