

## *DZ-280 Heat Vacuum Sealer Portable Seal Packing Plastic Bags Vacuum Food Seal Machine*

The DZ-280 is an ideal vacuum packaging machine for small, flexible industries. It is commonly chosen by meat shops, hotels, restaurants, institutions, and grocery stores.

### **Product Description**

#### **Advantage**

- This vacuum machine uses the best domestic 8m<sup>3</sup> vacuum pump technology.
- Most of the table top vacuum packing machine components are made of stainless steel to meet food safety requirements.
- The vacuum machine for food packaging can be optionally equipped with an inflation function.
- The vacuum sealer machine can be optionally fitted with acrylic glass covers in different colors.
- The single chamber vacuum packaging machine is equipped with a vacuum pump air filtration system to filter out oily gases produced by the vacuum pump, ensuring healthier expelled air.
- The vacuum machine for food packaging features removable heating sealing bars for easy replacement of the heating wires and accessories.

## Description

The Tabletop Sealing Machine is an efficient and versatile solution designed for sealing small to medium-sized packaging in heat-sealable materials. Perfect for small businesses, this machine ensures a strong, secure, and consistent seal on various types of products, from food and beverages to retail items and pharmaceuticals. With adjustable settings for sealing time and temperature, it allows operators to customize the sealing process to suit different materials. Its user-friendly design and compact size make it an excellent choice for companies looking for a cost-effective, high-quality sealing solution that can easily be integrated into their production process.
