

RP-900 Semi Automatic Ketchup Cream Paste Rotor Lobe Pump Filling Machine

The rotor pump filling machine has advantage of high accuracy when filling thick liquid or paste like jam, noodle pulp, meat stuffing, tomato paste etc. It is widely used in food, cosmetics, daily chemical industries.

Parameter

Product specifications	RP-900	RP-1800	RP-3600	RP-6000
1s single filling volume ml	5~50000	10~100000	10~200000	20~500000
Operating speed (RPM)	1~600	1~600	1~600	1~600
Equipped with power kw	0.75	1	1.5	2.3
Diameter φ	32	38	50	65

Material	SUS304 or SUS316
Filling volume	5-5000ml or customize
Filling precision	99%
Production speed	20-100 bottles/min
Automatic grade	Semi automatic/Pneumatic
Driving mode	PLC+servo motor
Filling nozzle	1 nozzle or customize
Air pressure	0.4-0.8MPA
Application	Cosmetic cream, lotion, shampoo, honey etc
Weight	70kg
