

## *JT-620H Double Sided High-speed Side Automatic Labeling Machine*

High speed double-sided automatic labeling machine

### **Scope of application:**

This machine is suitable for double-sided side labeling of flat, circular, and elliptical objects, and can be produced online or operated independently.

### **Characteristic:**

1. PLC combined with human-machine interface, intuitive operation, simple and clear
2. The entire machine is made of stainless steel and aluminum alloy, which are rust free and comply with GMP requirements.
3. This machine has functions such as bottle alignment, bottle separation, fitting, label smoothing, counting, etc
4. The position and angle of labeling can be adjusted.
5. Can be connected to conveyor belts for use on production lines.
6. Use servo motors with high speed and good stability.

## **Technical Specifications:**

1. Power supply: single-phase, 110V/220V, 50/60Hz, 4200W
2. Labeling speed: 30-350 bottles/minute
3. Labeling accuracy:  $\pm 1$  mm (excluding errors between the object being labeled and the label itself)
4. Product diameter (or thickness): 15-100mm, (special sizes can be customized)
5. Label height: 15-180 (special sizes can be customized for specific models)
6. Label roll diameter: inner diameter of paper roll 76mm, outer diameter (maximum) 360mm
7. Machine dimensions: length \* width \* height=2880 \* 1700 \* 1580mm
