

SED-16S Fully Automatic Grain Capsule Counter Machine

Automatic Electronic Counting Machine is mainly used for bottle packing of tablets (including abnormal tablets), capsules, gels (including transparent gels and opaque gels) pills and similar solid granules. Highly accurate counting.

Using our own original high anti-dust sensor technology, the machine works accurately with good stability in heavy dust conditions.

Feeding evenly with quiver, special patent filling part protects materials from harm.

No bottle under the filling hopper, no material in the supply hopper, or the photoelectric sensor box is abnormal, the machine makes alarm.

The special filling hopper avoids the materials jam, small mouth bottle can quickly bottling. (Available as an option)

You can choose the advanced device of getting rid of powder and the device of getting rid of static electricity. (Available as an option)

Sound and light alarm. (Available as an option)

Detection options include: lack of products in the supply hopper, damaged tablet, weighing systems online. (Available as an option)

Fully compliant to GMP regulations.

Trait of Tablet Counter Machine

- 1) Simple structure in linear type ,easy in installation and maintain.
- 2) Adopting advanced world famous brand components in pneumatic parts ,electric parts and operation parts.
- 3) Accurate measuring to get excellent filling effect.
- 4) Running in a high automatization and intellectualization, no pollution.
- 5) Suitable for a wide range of granules, such as tablets, capsules, gels, beans, hardware's, candy, etc.

Technical Parameters

Diameter of counting plate	360 mm
Applied size	Tablet diameter: 5 mm – 12 mm Capsule: 0# - 5 #
Hole quantity of the plate	5 – 100 optional
Production capacity	40 – 60 bottle(bag)/min, 20 ml – 300 ml, 9999 pcs /hour
Motor power	550 W
Power supply	AC, 220V/50HZ 1 phase
Weight	480 kg
Overall size	1560*1530*1700mm
