

## ***DGN-2 Main Machine + V Mixer***

DGN-2 Main Machine + V-Type Mixer. V-Mixer consists of two cylinders made into asymmetrical, so that the materials produced by the reciprocating motion of the severity of impact, ran the purpose to achieve uniform mixing, with no dead ends, no accumulation of material, speed and so on.

### **Technical Parameters:**

<b>Model</b>		<b>DGN-2+V Mixer</b>
Rotating Speed		0-120 r/min
Accessory Capacity		10 L
Power		220V/50Hz/0.37Kw
DGN-2	Packing Size	520×420×530 mm
	Packing Weight	120 Kg
V Mixer	Packing Size	50×60×70 mm
	Packing Weight	10 Kg
