

CM-3B Carton sealer

Carton sealers are case equipment that seals the top or bottom of a case with tape or glue. Typically, the minor corrugated flaps are kicked and plowed closed as the cases are transferred. As the cases enter the compression section, the major flaps of the carton are closed and a hot-melt adhesive is applied.

- Automatically fold the top flaps
- Automatically adjust the sealing height and width
- Suitable to connect to the full automatic packaging line

Technical Parameters:

Model	CM-3B
Power supply	3p 380V 50Hz/60Hz 1200W
Sealing speed	20 meters/min
Carton size	L(250-600)×W(180-450)×H(150-450)mm
Tape size	48-72mm(Kraft or BOPP tape)
Machine size	L(2100)×W(1050)×H(1750)mm
Shipping size	L(2150)×W(1100)×H(2000)mm
G.W/N.W	640kg/550kg
Optional	①Extension roller table ②Feet wheel ③Stainless steel
