

Carton Erector Carton Forming Machine XT-40H18

Specification:

Vertical storage is adopted for storing carton blanks, for which carton blanks can be added at any time without stopping the machine;

It's suitable for forming and sealing cartons of the same size. If carton size need to be changed, the operator should adjust the machine manually (finishing in 2-3minutes);

It's rationally designed so that the forming, folding and sealing process are accomplished simultaneously;

All the parts are precise and durable, without causing any vibration in running. Running steadily with long life;

Light in weight, high performance and speed.

Technical Parameters:

Model	XT-40H18
Power supply	220/380V 50Hz
Carton size	L200-450×W150-400×H100-350mm
Table height	Min.600mm, Max.720mm
Working speed	15 ctns/minute
Tape width	48mm, 60mm, 75mm (Choose one type)
Machine size	L2000×W1900×H1450mm
Machine weight	400kg
