

MB-280L Jelly Bag Packing Machine for Liquid

The machine is suitable for small doses of jelly, liquid.

Features:

1. The bag not only can make into center side sealing bag shape is beautiful.
2. The machine can finish the bag making, filling, sealing, cutting, counting, and printing batch number and other functions automatically.
3. Adopt the PLC control, the film is driven by stepping motor, no matter fixed length to do bag or the cursor tracking to do bag, bag length can be sent and cut in one step, saving time and film.
4. The machine performance is stable, accurate detection, add the corresponding attachments can complete date printing.

Technical Data:

Model	MB-240L
Packing speed	20-60 bag/min
Bag size	L 50-350mm * W30-100mm (Other specification available upon request)
Bag making mode	center side three side four side sealed Round corner
Range of measuring	5-50g/bag (Other specification available upon request)
The maximum width of inner bag packing film	200mm
Thickness of film	0.04-0.08mm
Main power/voltage	2KW/220V 50-60Hz
Dimension	960*730*2180mm
The weight of switchboard	350kg
