

FX-1 Single Head Screw Capping Machine

This machine integrates machinery, electricity, gas into integration, is the new high-tech product. The man-machine interface system, it is convenient and swift to adjust the specification. The machine is made up with cap scrambler, cap suppliers, cap scraping and cap screwing which is suitable for automatic capping for large buckets.

Technical parameters:

- ◆ Production capacity: ≤2000 BPH
- ◆ Suitable bottle diameter: $\Phi 30\sim\Phi 100$ mm
- ◆ Cap specification: $\Phi 12\sim\Phi 70$ mm
- ◆ Compressed air pressure: 0.5-0.7 Mpa
- ◆ Motor power: 0.5 KW
- ◆ Overall dimension: 1500x800x2100 mm
- ◆ Weight: 300 KG
- ◆ Remark: We supply customized service
