HGF Automatic Filling Aluminum Plastic Sealing Machine

Performance characteristics:

1. The machine adopts advanced full computer touch screen operation, man-machine interface, simple and convenient operation, international famous brand PLC, servo control system, can automatically complete supply pipe, benchmarking, pipe cleaning, filling, sealing (folding) , coding, product export and other processes, and can be customized according to customer requirements.
2. To achieve a multi-purpose machine, can fill the plastic pipe, aluminum pipe, lead pipe, composite pipe and other materials of different requirements of filling or sealing.
3. The overall contact material parts and casing are made of 304 stainless steel, which meets the food and drug hygiene permit standards.
4. The inner wall of the tube three-layer instant heater, non-destructive tube outer wall pattern film, beautiful seal.
5. No pipe is not filled, the low air pressure automatically displays the alarm, and the pipe is automatically stopped when the pipe is not in place or the protective door is opened.
6. Advanced design to ensure that the machine is suitable for different industries in the use of adjustment, operation, maintenance are very convenient, and can be used with a variety of automatic metering equipment at home and abroad.

Scope of application:

Packaging materials: cosmetics, food, pharmaceuticals, adhesives, grease industry, creams, ointments, creams, gels and other materials.

Packaging materials: plastic tubes, aluminum tubes, lead tubes, composite tubes and other materials.

Technical parameters:

型号	HGF-50
功率Kw	4.2
电压V	220
软管直径mm	10-50
灌装容量ml	5-250
软管长度mm	50-220
包装速度bags/min	50
耗气量L/min	200
气压	0.55-0.65Mpa
外形尺寸mm	2000x950x1900
整机重量Kg	600
