

XT-XGA Automatic Capping/Screwing Machine

1. The machine is integrated with automatic capping/clamping cap screwing machine with rapid production speed, high efficiency, stable and reliable operation.
2. Photoelectric sensor, approaching switch and other components adopt advanced sensing elements to ensure automatic outage alarm and other functions when no capping redelivery at bottles available for capping.
3. Replacing of different specifications of bottles and simple adjustment can be achieved through easy operation.
4. World-renowned electrical and pneumatic components are adopted to achieve failure rate, stable and reliable performance and long service life.
5. This machine is applicable to food, pharmaceutical, daily chemical, agricultural chemicals, cosmetics and other industries.

Product Details:

Production capacity: 50- 80 bottles/min.

Electricity power: 0.27KW 220V 50Hz

Overall dimensions: (L*W*H) 1500*650*1400mm

Weight: 110Kg
