

## Labeling Machinery

### Product Description

The labeling machine is specialized in round bottles. When labeling, the bottle will automatically rotate to allow the labeling device to apply the pressure for labeling. It's suitable for medicine, food, beverage and chemical industries. It can be used for plastic, glass, metal and other round containers/ bottles. Replacements of a few parts, it also can be used for square bottles.

### Features & Specification

1. Simple and compact in design,

2. with PLC control System with Feather touch Keyboard and LCD display,
3. Can store up to 16 different programs for setting of different type of bottles,
4. Label release and fixing mechanism to release the label,
5. with Servo motor drive as per requirement,
6. Online batch coding,
7. As the use of optical control devices, power protection devices which with a start buffer function, the overall high sensitivity, low-speed torque, speed and stability, voltage stability, the strong ability of anti-interference and strong technical characteristics. Ensure labeling accuracy, stable, reliable and efficient.

### **Technical parameters:**

Labeling speed:	200 bottles/min
Labeling precision	±1 mm
Power supply	220VAC 50/60HZ. 1.5kw
Working temperature	0~50°C
Air pressure	0.4~0.6MPa
Dimension (long X width X height)mm	L 2200mm W 840mm H 1600 mm
Total weight	300KG
