

Sugar Coating Machine BY-200

Sugar Coating Machine is ideal for coating and polishing the shaped tablets and microgranules in confectionary and pharmaceutical industry. It can also be used to coat nuts, dried fruits, chocolates and seeds etc.

Introduction and Features:

- ◇ Available in SS304, SS316, copper with 12" to 78" Pan Diameter (200-2000mm).
- ◇ Available with Frequency Controller
- ◇ Available with Hot Air Blower Unit and Sprayer for uniform coating on the objects.
- ◇ Stable running, low noise, easy operation and high efficiency.
- ◇ Easy to clean and maintain.
- ◇ Comply with GMP Standard.

Technical Parameters:

Model	Pan Dia. (mm)	Production Capacity (kg/h)	Pan Speed (r/min)	Motor Power (W)	Overall Size(mm)	N. W.(kg)	Voltage
BY200	200	0.5	0-60	25	200×300×450	6.5	220
BY300	300	2-3	0-60	125	550×390×700	30	220
BY400	400	3-5	0-60	125	550×400×850	33	220
