

DPP-400 Cantilever Style Flat-plate Blister Machine

Function Features:

It is suitable for different shape packaging of Alu / PVC, Paper/Alu and Alu /Alu for capsule, tablet, candy, honey shape pills, vial, ampoule, disposable syringes and so on in industries of pharmaceutical, foodstuff, health product, medical instruments and etc.

Main Technical Parameter:

Cutting Frequency	10-25 Times/min 12 Plates/time
Max. Shaping Areas and Depth	400x180x40mm
Standard Plate	80x57mm (Can be designed according to customer requirements)
PVC Rigid Sheet	0.25-0.5x400mm
Dialysis Paper	50~100g×260mm
Mould Cooling	Tap water or circulating water
Overall Dimensions	4100 ×1050 × 1830mm(L×W×H)
Production Capacity	18000pcs/h
Max. Trave	180mm
Air Supply	0.4MPa~0.6MPa
PTP Aluminum Foil	0.02-0.035 ×400mm
Main Motor Power	2.2Kw
Weight	2000Kg
