

## Rotary Pouch Bag Filling & Sealing Machine

This rotary pouch bag filling & sealing machine is widely used in food, chemical, pharmaceuticals, nuts and other industrial fields. The packing bag suits in extensive range, suit for multi-layer compound, monolayer PE, PP and so on preformed bag made by film and paper. It is suitable for packing solid, granule, liquid, thick liquid, powder and so on with different feeders device changed.

### Features:

- 1) Easy to operate: adopt advanced PLC from Germany Siemens, mate with touch screen and electric control system, the man-machine interface is friendly.
- 2) Frequency conversion adjusts the speed: can be adjusted within the range according to the needs of reality in production.
- 3) Horizontal conveyor style to giving bag: it can put on more bags on the bag storage and have a low requirement about the quality of bags.

### Technical parameters:

Model	rotary pouch bag filling & sealing machine
Bag Material	Composited materials, PE, PP etc.
Bag Type	Stand up bag, flat bag
Bag Size	W:110-210mm, L:100-350mm(could be customized)
Filling Range	100-1000ml(could be customized)
Weighing Range	±1%
Packing Speed	10-60bags/min
Voltage	380V 3phase 50HZ/60HZ
Power	4.5KW
Compress Air	0.6m <sup>3</sup> /min
Machine Dimension	2353mm*1610mm*960mm
