

## *DY-60F Vertical Powder Packaging Machine*

Apply to food, medicine, chemical and other industries products not sticky, less liquid automatic packaging powder materials, such as flour, wheat flour, powder, powder feed, mask powder, whole milk powder, etc.

### **Feature:**

- Compact structure, solid, reasonable design, Introduction.
- Single-chip optical control system, reliable, stable performance.
- Screw metering, stepper motor drives, design reasonable, stable.
- Speed, high precision, low noise.
- Automatic measuring, filling, bag making, date printing to the products at once.

### **Technical parameters:**

Model	DY-60F
Packing type	3、4 side seal
Packing width	30-100 ( 85 ) mm
Packing length	40-140 ( 120 ) mm
Packing volume	2-50ml
Packing speed	40-60bags/min
Power	1300w
Machine weight	190kg
Machine size	750*630*1600mm
