3. Machine stop when run out of film, heat sealing will be work automatically after machine stop;
4. Fully automatic color code tracking, positioning and fixed length of the packaging bag
5. Optional sealing type: three sides, four sides, back seal.

Technical Data

Model	AT-DXDF-280
Bag length	40-160mm
Bag width	20-120mm
Filling range	2-100g, 200-1000g
Capacity	50-70bag/min
Punch or not	No punch
Connected bag or not	Can be selected
Bag type	4 edge seal, plane edge
Power	220VAC/50HZ/2.3KW
Machine size	730*630*1580MM
Machine weight	200kg
