

HHQ Bottle Washing Machine (cylinder ultrasonic washing machine)

Introduction

- HHQ series bottle washing machine is widely used for washing plastic or glass
- Oral liquid bottles or oral liquid syrup bottles in pharmaceutical industry.
- Also it can be used for washing big vials like 500ml, 1000ml.

It is suitable for 2-1000ml, all kinds of materials or irregular bottles which have bolders wash the bottle inside and outside alternately by water, lutetium water and air to achieve the production request and it can blow initial.

Technical Parameters:

Output	≤120 bottles/min (According to bottle size)
Watts	1.6kw
Power	380V 50Hz
Water wastage	0.6-1t/h
Air wastage	15m ³ /h, 0.3-0.4kg/cm ²
Weight	600kg
Overall size	1360mmx 900mm x 1350mm
