

24 Channel Automatic Electronic Counting Machine HYJF-24

Automatic Electronic Counting Machine is mainly used for bottle packing of tablets (including abnormal tablets), capsules, gels (including transparent gels and opaque gels) pills and similar solid granules.

- Highly accurate counting.
- Using our own original high anti-dust sensor technology, the machine works accurately with good stability in heavy dust conditions.
- Feeding evenly with quiver, special patent filling part protects materials from harm.
- No bottle under the filling hopper, no material in the supply hopper, or the photoelectric sensor box is abnormal, the machine makes alarm.
- The special filling hopper avoids the materials jam, small mouth bottle can quickly bottling. (Available as an option)
- You can choose the advanced device of getting rid of powder and the device of getting rid of static electricity. (Available as an option)
- Sound and light alarm. (Available as an option)
- Detection options include: lack of products in the supply hopper, damaged tablet, weighing systems online. (Available as an option)
- Fully compliant to GMP regulations.

Main Technical Data

- Applicable: 00-5#capsules,soft gels ϕ 5.5-22normal tablets, special shape tablets, coating tablets ϕ 5.5-20pills and other solid granules
- Capacity: 20~90BPM
- Working range: Adjustable from 2-9999 per bottle
- Power supply: 220V/50Hz 1.2kw can be customized
- Air supply: 0.6Mpa, 36-45l/min
- Size: 1800*1400*1560mm
- Weight: 380kg
- Remarks: Capacity is subject to the type and size of the bottle and tablet, as well as the quantity filled per bottle
