

ZHG200 Linear Capping Machine

With our cutting edge technology, we make linear capping machine available in the market. The screw capping machine is manufactured using high grade components. This ZHG200 capping machine we provide is of superior quality that distinguishes it from other variants in the market. It features special attributes such as high efficiency, optimum performance and smooth functioning.

Features

1. The linear capping machine is applicable to bottles of different specifications with screw.
2. Stop it when meeting troubles and no bottles, this screw capping machine is more safety.
3. Bottles enter in line with continuous capping. It is high efficient and quick (capping speed is two or three times as fast as intermittent capping).
4. It is of frictional capping and rotary bottle conveying, no shake and noise.

Technical Parameters of Linear Capping Machine

| | |
|---------------|--------------------|
| Capping Speed | 50-200 bottles/min |
| Bottle Size | Ø 30-120mm |
| Power | 1000W |
| Voltage | 220V 50-60Hz |
| Dimensions | 1800×850×1850 mm |
| Weight | 720 kg |
