

ZTY-40/150 Automatic Liquid Packing Machine

ZTY-40/150 Automatic Liquid Packing Machine is suitable for automatically packaging of viscous products with free-flowing such as shampoo, lotion, edible oil and broth, etc. The integrated processes of bag making, measuring filling, sealing cutting, counting and hot pressing codes can be done automatically. Packing material includes several kinds of heat seal lamination, such as PET/plated AL/PE, PET/PE, PAPER/PE, NYLON etc.

Features:

1. All stainless steel cover meets to GMP standard.
2. Equipped with antipollution and dustproof device.
3. Automatic adjustment of pouch size and filling range.
4. Photocell controller is easy to manipulate.
5. The horizontal sealing uses high temperature resistant bearing which will ensure the continuous operation of the machine without filling the oil regularly.

6. The operation facility is controlled by American Intel computer, all function is displayed with digital screen.
7. Minimum sealing temperature variation employs PID temperature; the tolerance is controlled by $\pm 2\%$.
8. Sealing part: roller spends process is special designed and the effect of sealing is very well
9. Equipped with easy open system.
10. Have gained the European CE certification
