

XY-Z760F Full Automatic Granule Packaging Machine

Product description:

Application Scope:

Granule or puffy granule material with fine flow ability, such as feed, seed, rice, peanut, tea, aginomoto, sugar, washing powder and so on.

Product characteristics:

- Can form kinds of bag, such as pillow style bag, edge-fold bag, stand bag, handbag, easy tear mouth bag and so on
- Can print anti-counterfeiting mark on bag.
- Horizontal seal use servo motor to drive, high speed, seal pressure adjustable, seal stably, low noisy
- Film-pull system apply servo motor drive, stable, reliable, accurate, long service life
- Film-release system applies an outward axle to release film to assist. The diameter of film rolls will not affect film-release, stable and reliable.
- Can design and produce as your special requirement.

Technical Parameters:

Weighing Scope:_____500-5000g
Accuracy:_____±0.2%FS
Bag Size:_____50-600/ 70-360(mm) (L*W)
Film Width (Largest):___760 (mm)
Packing Speed:_____18-40bags/min
Power:_____8Kw/20A
Air consumption:_____0.5-0.6Mpa 0.4 m3 /min
Working Voltage:_____3PH 50Hz 60Hz/220V 380V
Dimension:_____2400*2400*4260 (mm) (L*W*H)
Machine Weight:_____1500kg
Controller Interface:_____5.7”LCD
