

Shrink Sleeve Applicator (Big Diameter Special) HLB-1100

Product Range

- High Speed Shrink Sleeve Applicator
- Super Speed Shrink Sleeve Applicator
- Standard Shrink Sleeve Applicator
- Auto Cap Banding Applicator
- Economical Shrink Sleeve Applicator
- Steam Shrink Tunnel
- Electric Shrink Tunnel

Features

- Specially designed for products with big diameters ranging from 125mm to 230mm, with complete function.
- Fits various shapes of bottles which capacity is over 3 liters.
- Composed of SUS 304 stainless steel, with elegance appearance and compact construction.
- Equipped with high-level HMI and PLC, control function fulfilled, it's all finger job!
- Enhanced rigid double driving system, able to hold heavy mandrel and ensure safety changeover.
- Pneumatic automatic bottle separation device (equipped depending on bottle volume and diameter) helps decrease the cost for changing bottles.
- Special film cutting system for a wide range of bottles, using standard types of blades for convenient purchase.
- Safety door proportion 1:3 for best operation and safety guarantee.
- Overall CE power distribution ensures safety operation.
- Work with all other auxiliary devices and shrink tunnel, the real machine for your choice.
- Equipped with intelligent memory settlement when sleeving multiple bottle types at different speed, providing user-friendly and convenient changeover.

Specification

	Model	HLB-1100
Machine	Dimension (L W H)	1930 x 1120 x 2335 mm
	Weight	750 kg
	Electric Power	AC - 3 Phase 220 V / 2.5 kW
	Speed	20-60 BPM
Container	Diameter	Ø 125 - 230 mm
	Height	Max 350 mm
	Material	Glass, Metal, Plastic
	Shape	Round, Oval, Square, Rectangular
Shrink Sleeve	Material	PVC, PET, OPS, PLA
	Thickness	0.035 - 0.08 mm
	Inner Diameter of Sleeve Roll	5" ~ 10"
