

T60CF Automatic 4 Sides Seal Bag Powder Packaging Machine

It is suitable for packing milk powder, coffee powder, sesame powder, salt powder, sugar powder, seasonings, ganoderma powder, and other powdery products, etc.

Features:

1. Adopts fully automatic computer control, and film pulling device is controlled by stepper motor
2. Perfect sealing performance, avoids leakage and dampness, and it is good for environmental protection
3. Adopts auger filler for more accurate measurement. The measurement accuracy is $\pm 1\%$.
4. Working speed can be greatly improved, without leakage; the environment is dust-free.
5. Photo-cell controlled, ensure extremely accurate bag forming, sealing and cutting performance.
6. This machine can perform four sides sealing.
7. Equipped with a product counting device.
8. All components in direct contact with the product are made of SUS304 stainless steel, conforming to sanitary standards.
10. The entire procedure from weighing, bag forming, filling and sealing to cutting and packaging is fully automatically operated.
11. Machines can be made to customers' own specifications on request.
12. Options: Date coder, Vibration loading system.

Standard technical data:

Model	T60CF
Machine name	Automatic 4 Sides Seal Bag Powder Packaging Machine
Bag type	4 side sealing
Feeding range	1~10g or 10~50g (100~500g can be customized)
Bag size	L: 50~260mm; W: 70~120mm
Power supply	220V/50HZ/1.2KW
Packing speed	30~40 bag/min
Machine weight	260KGS
Machine dimension	870*650*1650mm(L*W*H)
