

## *Horizontal Premade Bag Pouch Packing Machine BHP-series*

Widely used in a variety of pre-made bags, stand-up bags, three-side sealing bags and four-side sealing bags

- Easy to operate: plc control, smart interface, low error rate
- Easy to adjust: only takes 10 minutes to adjust the different bags change time
- High automation: this system can realize automatic weighing, bag opening, filling, printing and sealing, saving time and effort

### **Features&Advantages:**

#### **Independent film unwind unit**

1. Ensure good control of film tensile force
2. More flexible for film roll width or pouch specification
3. Better pack forming

#### **Dual filling station**

1. Reduce filling time by half
2. Improved filling accuracy
